This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

LFDE TRANSATLANTIC CLASS I

ISIN: LU2544562254 A sub-fund of the investment company named SOLYS (the "company") domiciled in Luxembourg

Managed by SG 29 HAUSSMANN (Groupe SOCIETE GENERALE)

Objectives and investment policy

This Fund is actively managed meaning that the Management Company is taking investment decisions with the intention of achieving the Fund's investment objective with complete discretion with respect to portfolio allocation and overall level of exposure to the market. The Fund's investment universe is limited by the components of the Benchmark Index but, is not in any way constrained by the Benchmark Index in its portfolio positioning. The deviation from the Benchmark Index may be significant (in terms of weighting and constituents).

The investment objective of the Fund is to outperform the is the Solactive GBS CW DM US and Europe (EUR) Index NTR (SCWUEEN) (the "Benchmark Index") over a long-term horizon by exploiting investment opportunities on the equity markets, while providing a fixed stream of distributions.

The Fund seeks to achieve its objective by investing in: a diversified basket of transferable securities including fixed or variable debt instruments issued or guaranteed by sovereign states of the euro zone and shares or units of UCITS or other UCIs (the "Basket") and / or in an OTC Derivative (the "Swap") which exchanges the investment proceeds against the performance of the Portfolio (as defined hereafter).

The Portfolio consists primarily of equities listed or traded on Regulated Markets of issuers which have their registered office or carry out their predominant activities in the USA and in the countries of the European Region (the "Investment Universe").

The share currency is the Euro (EUR).

Invested financial instruments: Futures, forwards, options, swaps and swaptions.

Dividend policy: the Fund's amounts available for distribution (if any) will be distributed.

Net Asset Value: is calculated daily provided that the relevant stock exchanges are open for trading and orders can be covered.

Subscription and Redemptions: one Business Day before any Dealing Day at 15:00 Luxembourg time at the latest.

Risk and reward profile

The risk-return category shown above is based on the historical performance of the assets included in the Fund or the performance of its benchmark index or the computed performance of a portfolio model. This risk estimate may therefore not represent a reliable indicator of future risk and may be subject to change over time. The lowest category does not mean risk free investment.

The Fund has been classified within category 6. Category 6 indicates that it is possible to suffer a severe loss of capital under normal market conditions; the value of your investment may change substantially and have quite large daily upside or downside variation.

Main risks not covered by the above indicator which could lead to a decrease in the net asset value of the Fund and which the Fund is authorized to disclose in this document (for more details about risks, please refer to the Risk Profile section of the prospectus)

Counterparty risk: The Fund is exposed to the risk that any counterparty with which it has concluded an agreement, or a transaction could become insolvent or otherwise default and more particularly when it has concluded financial derivative instruments over-the-counter or securities lending transactions. If such an event occurs, the net asset value of the Fund may decrease significantly. According to the regulation applicable to the Fund, such risk cannot exceed 10% of the Fund's total assets per counterparty.

Risk of Financial derivative Instruments: The Fund invests in financial derivative instruments. These financial derivative instruments can induce different types of risks such as (but not limited to) leverage risk, high volatility risk, valuation risk or liquidity risk. If this risk occurs, the net asset value of the Fund may decrease significantly.

Operational risk: In the event of an operational failure of the management company or one of its representatives, investors could experience loss, delay in processing subscriptions, conversions, redemptions orders or other type of disruptions.

Credit risk: The Fund is subject to the risk that any issuer could become insolvent or to otherwise event having an impact on the credit quality of this issuer. The consequence of this risk or event may result in a decrease of the net asset value of the Fund.
