SG 29 HAUSSMANN is approved to operate in France under licence No. GP-06000029 and is regulated by the AMF.

Date this document was created: 25/01/2023

Key features of this product

Type: Mutual Fund

Duration: This fund was established for a term of 99 years.

Objectifs:

The Fund is actively managed and is not linked to a benchmark. The objective of the Fund's investment policy is to enable investors to participate in appreciation in the value of the global equity and European bond markets over the medium and long-term. At the same time, the investment in the European bond and money markets or the use of derivative strategies is intended to ensure that the capital invested is hedged annually at fixed time points ("Guarantee Dates"). A higher return will be achieved for the Fund compared to lower-risk bond investments above all through exposure to the global equity markets. Taking into account the respective capital market situation (e.g. price level of the equity markets, interest rates for short- and medium-term interest instruments), the Fund management shall determine a certain weighting of bond- or equity market-oriented exposures.

If the Management Company deems it appropriate, the weighting is usually adjusted. The adjustment is based on certain rules which, according to the professional assessment of the Fund management, are expected to enable the net asset value of unit class IT (EUR) to be secured at the Guarantee Date of the Fund at its respective guarantee level.

Investments are predominantly made directly or via derivatives in equities and comparable securities of companies domiciled worldwide. In addition, the Fund may, in exceptional cases, invest up to 100% of the Fund's assets in bank deposits.

A maximum of 10% of the Fund's assets may be invested in equities, interestbearing securities and comparable securities whose issuers are domiciled in an emerging market country. Derivatives may be used to offset price movements of the assets (hedging). The assets may also be denominated in foreign currency. The proportion of assets not denominated in Euros is not limited. In principle, the investor may redeem units in the Fund on each valuation date.

Income is reinvested in the Fund. The base currency of the Fund is the Euro. Recommendation: The unit class of the Fund should be invested in with at least a medium-term investment horizon.

Net asset value: The Net Asset Value will normally be calculated ("Calculation Day") and published ("Publication Day") in Frankfurt am Main, Luxembourg and London on the banking day following the Valuation Day.

Eligible investors: This fund unit class is available to institutional investors.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within less than three years.

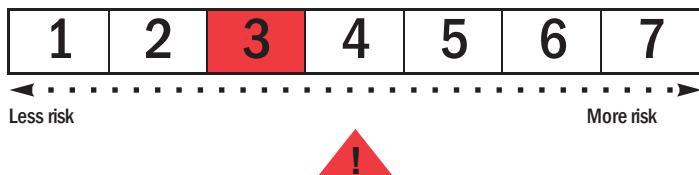

Depositary: BNP Paribas, Luxembourg Branch

Additional information: You may obtain more information about this fund, including its prospectus and financial reports, free of charge upon request directly to SG 29 HAUSSMANN, 29 boulevard Haussmann, 75009 Paris.

The fund's net asset value is available at: <https://www.fundsquare.net>

What are the risks and potential rewards ?

Synthetic Risk Indicator:

This risk indicator assumes that you stay invested for at least three years. The actual risk incurred may be quite different if you leave the fund prematurely, and this may adversely affect your return. This risk indicator measures this product's level of risk relative to that of other investment products. It reflects the probability that adverse market movements may cause this financial product to suffer a loss, or that we may not be able to pay you.

We have given this product a medium risk class rating of 3 out of 7. This means that it has between low and medium level potential for loss, and that SG 29 Haussmann may not be able to fully redeem your investment if market conditions deteriorate.

The fund may also be exposed to the following risks which are not covered by the risk indicator:

Counterparty risk: This is the risk that a counterparty to an over-the-counter transaction with the fund may be unable to honour its contractual obligations.

Liquidity Risk: This is the risk that a financial market will be unable to accommodate the volume of trading.

Performance scenarios

The figures shown below account for all the costs that are inherent to the financial product, but not necessarily all of the fees you may owe to your advisor or distributor. They also do not take into account your personal tax situation, which may also affect the amounts you receive.

Your return from this fund depends on the future performance of financial markets. Future market movements are random and cannot be accurately predicted. The unfavourable, intermediate and favourable scenarios presented below are examples based respectively on the fund's worst, median and best returns and on the average performance of the appropriate benchmark index over the last three years.

Markets may behave quite differently in the future. The stressed scenario shows your hypothetical return under extreme market conditions. It is not easy to liquidate an investment in this product. You have no guarantee if you leave the fund before the end of the recommended holding period.

Recommended holding period : 3 years
Investment: 10,000 €

Scenarios	If you leave after:		
	1 year	3 years	
Minimum return	No minimum return is guaranteed if you leave the fund before three years. You could lose some or all of your investment.		
Stressed scenario	Your hypothetical return net of costs	8 272,00 €	6 999,00 €
	Average annual return	-17.28%	-11.21%
Unfavourable scenario	Your hypothetical return net of costs	9 513,00 €	9 784,00 €
	Average annual return	-4.87%	-0.73%
Intermediate scenario	Your hypothetical return net of costs	10 570,00 €	11 706,00 €
	Average annual return	5.70%	5.39%
Favourable scenario	Your hypothetical return net of costs	11 610,00 €	13 845,00 €
	Average annual return	16.10%	11.45%

What happens if the management company is unable to redeem my shares?

If the management company that manages your fund's assets defaults, this will have no effect on your investment. Your fund depositary is responsible for the custody and safekeeping of your fund's assets.

How much will this investment cost me?

The tables below show the amounts taken from your investment to cover the various costs. These amounts depend on the amount you invest and on how long you hold your investment. The amounts shown here are examples based on a hypothetical investment amount and different possible investment periods.

We have assumed the following:

- that in the first year you would get back the amount you invested (0% annual return)
- that for the other holding periods the product will perform as shown in the intermediate scenario.
- 10,000 EUR is invested.

COSTS OVER A 3-YEAR PERIOD

Investment: 10,000 EUR	If you leave after:	
	1 year	3 years
Total costs	671,95 €	1 147,19 €
Annual cost in % (*)	6.81%	3.76% per annum

Your financial advisor on this fund or its distributor may require that you pay additional costs. If this is the case, they will keep you informed of these costs and explain how they affect your investment.

COSTS BREAKDOWN

The table below:

- shows the annual impact of the various types of costs on the return on your investment you could obtain if you remain invested throughout the recommended investment period;
- explains the nature of each fee or charge.

One off entry and exit charges	The impact of annuals costs if you leave after just 1 year Investment : 10,000 €	
Entry charge	5.00% of your investment. This is the maximum amount you will pay and you may pay less.	500,00 €
Exit charge	0.00% of your investment before it is paid to you. This is the maximum amount you will pay and you may pay less.	0,00 €
Charges taken from the fund annually		
Management fees and other administrative and operating expenses	1.48% of the value of your investment per annum. This estimate is based on the actual costs incurred during the previous year.	148,00 €
Transaction costs	0.33% of the value of your investment per annum. This is an estimate of the costs we incur when we buy and sell the investments that underlie the product. The actual amount depends on the volume of securities we buy or sell.	33,00 €
Ancillary charges taken from the fund under specified conditions		
Performance-related fees	There is no performance-related fee for this product.	0,00 €

How long do I have to hold my investment and can I withdraw my money early?

RECOMMENDED INVESTMENT PERIOD: 3 YEARS

This fund may not be appropriate for investors who plan to withdraw their money within less than three years. The recommended holding period is intended to minimise the risk of capital loss on your investment if redeemed after this period. It does not however constitute a guarantee. You may however redeem your investment at any time. Your fund charges no redemption fee.

Who do I contact if I have a question or complaint?

You may address any questions or complaints directly to SG 29 HAUSSMANN, 29, boulevard Haussmann, 75009 Paris, or via its website at <https://sg29haussmann.societegenerale.fr>.
